ATTRACT MORE PATIENTS WITH THE PATENTED CHEMISTRIE LENS LAYERING SYSTEM

Chemistrie Clips consist of an ultra-thin pair of high-quality lenses that attach directly to your patient's glasses, utilizing small magnets embedded into the prescription lenses. Each Chemistrie Clip is custom-made to fit virtually any frame and prescription, offering a versatile and affordable second, third, or even fourth pair.

CHEMISTRIE SUN

Chemistrie Sun lenses are a functional, convenient, and stylish alternative to prescription sunglasses. Available in 24 polarized solid, mirror, and gradient colors and three non-polarized solid colors. All sun lenses provide 100% UV protection and are available in a wide range of base curves to match the patient's frame.

SOLID SUN LENS COLORS

- GREY
- BROWN
- G-15
- AMBER
- BRONZE
- YELLOW
- ROSE
- BLUE

MIRROR SUN LENS COLORS

- CALIENTE

GRADIENT SUN LENS COLORS

- AMBER
- VIOLET ROSE
- DARK BROWN
- ROUGE
- DARK GREY
- VIOLET GREY
- CRIMSON GREY
- MEDIUM BROWN

CHEMISTRIE BLUE

Chemistrie Blue lenses filter a portion of the high energy violet and blue light emitted by screens, tablets, smart phones, and fluorescent lighting. Available in plano and reading powers from +0.50 to +2.00 D.

CHEMISTRIE PLUS

Chemistrie Plus lenses act as an add-on reading power that is ideal for emerging presbyopes or patients who have non-adapt issues with progressives. Surfaced to an edge thickness of 0.8 mm for a sleek look with front and backside anti-reflective coatings. Available in powers from +0.50 to +2.50 D.

CHEMISTRIE COLOR

Chemistrie Color lenses filter precise portions of the visible light spectrum to create contrast and color separation enabling patients with Color Vision Deficiency to discern additional colors and shades. Available in Outdoor Severe, Outdoor Moderate, and Indoor options.

CHEMISTRIE CALM

Chemistrie Calm FL-41 lenses offer therapeutic comfort and may help relieve discomfort from light sensitivity and other migraine symptoms induced by fluorescent and other harsh lighting environments. Available in Light and Medium tints.

CHEMISTRIE | AVULUX

Chemistrie Avulux combines clinically proven Avulux Migraine & Light Sensitivity Lenses with the convenience of Chemistrie Clips. Migraine affects nearly 48 million Americans—as many as one in every five patients in your practice. Chemistrie Avulux may be the on-demand solution for patients living with migraine and light sensitivity.
